\$50,000,000.

These figures represent in round numbers the assets of the New York Life Insurance Company, the exact amount, January 1, 1883, being \$50,800,396.82. this amount about one-fifth is surplus, and sixty thousand one hundred and lifty policy holders, the company being a purely mutual organization, with neither capital stock nor stockholders. Surplus is divided among policy-holders exclusively. Over \$22,000,000 in dividends have been paid insurance from table-rates.

The New York Life was organized in and their legal representatives over \$67,-

The amount paid policy-holders, added to the amount now held in trust for them, exceeds the payments to the Company by over \$9,000,000.

The New York Life has now an annual income of about \$12,000,000, and its inabout \$3,500,000 annually.

The Company's interest receipts during cent. on its average assets, and less than three-tenths of one per cent. was due and unpaid January 1, 1883. Its gross interest | by British bondholders. receipts since organization have exceeded its death losses.

a large number of "Tontine Investment Policies," issued in 1872, which gave larger returns than similar policies of any other company, issued and maturing in the same years. The annual cost of \$1,000 insurance, at some ages, was less than \$1.50, while policies issued on the Ten-year Life miums paid with interest at about savings bank rates.

During 1882 the New York Life 'settled

The New York Life originated Nonforseiture Policies nineteen years before the non-forfeiture law of the state was enacted, and continues to offer a more liberal contract than the law requires. For further particulars, or estimates up-

the Company's agents, or to the NEW YORK LIFE INSURANCE CO. munity.
